I will email about 7 days before pay date for you to check your paysheet (Print view your paysheet). Once checked, send an email to me & copy Ellen to confirm your paysheet is ok or if changes are needed. Even if you are getting paid 1X you still need to confirm your paysheet.

- Call all ball handling faults & backrow player faults
- Whistle, Signal Point/Side out; Signal Fault (don't rush)

Training Director - Danny McLaughlin

Pre Season Guide (Pg, 9 pp 4).

- First referee awards point & signals fault– second referee mirrors loss of rally/point signal & signal fault.
- Second referee should NOT LEAD (be ahead of the R2) in awarding point & signaling the fault.
- The first referee almost always is the referee awarding the point - the second referee mirrors the R1 signals. (Except is net faults, center-line violations, out on antennae on R2 side)

0:18 - 1:00 Handling Coach 1

1:00 - 1:30 Proper Way for Officials to Handle the Call

1:30 - 2:17 Handling Coach 2

Communicating with Head Coach

- Established a good rapport with each coach during the pre-match... continue thru match.
- Regardless of previous history or familiarity, all coaches must be treated consistently and humanly.
- A good referee listens rather than reacts when a coach genuinely inquiries about a non-judgment play.
- Listen, provide a quick response, then give the game back to the first referee.
- The second referee has the task to serve and protect and can certainly pre-empt or defuse potential unsporting conduct by a coach or another participant.

Injury Management - R2

Injury

Injury procedure is a Point of Emphasis with the NFHS this year. See your Pre-season guide

Commish's Corner - 2022 Points of Emphasis

→ Sportsmanship

- ◆ Positive communication between officials and coaches
- ◆ Administer cards as needed to control unsporting conduct by coaches and/or players
- ◆ Officials should never engage with spectators who exhibit unsporting behavior
 - Notify school administration or home team head coach
- ◆ Allow enthusiasm from spectators

Address derogatory or racist comments, profane or insulting language

2022 Points of Emphasis

- Establishing ground rules and maintaining uniformity
 - ◆ Extended space needed for serving area when the minimum six feet is not available
 - ◆ Change of playing surface
 - ◆ Floor obstacles
 - ◆ Adjacent courts
 - ◆ Divider nets
 - ◆ Overhead obstructions

2022 Points of Emphasis

→ Injury procedures

- ◆ Suspend play immediately
- ◆ First referee remains on stand; second referee allows coach/medical staff to tend to the injured player; line judge move to time-out position
 - Officials should refrain from giving the appearance of assessing the injured player
- ◆ Second referee communicates with a coach regarding options and reminder that they have 30 seconds to choose an option

Coach addressing referees

- Only the HEAD coach for each team can address the referees to discuss calls/non-calls or request a timeout or a substitution
 - ◆ Any coach can ask the referees to confirm the number of timeouts, substitutions, request a line-up check (for their team), verify proper server for the opponent, or review the accuracy of the score.
 - ◆ These requests happen only during a dead ball situation

Correctable Error

- If incorrect information provided by the officials (referees) regarding substitutions, timeouts, or lineup checks leads to an immediate related fault, it is a correctable error.
 - ◆ For example: Team A asks for a lineup check and is told player #4, is the next server. Immediately after #4 serves the ball, the scorer states that Team A has had an incorrect server (#8 should have been the correct server). Team A has not committed a fault; the rally should be replayed with #8 serving.
 - ◆ Coaches should be getting their information from the R2!!

Line Judges Overview

LINE JUDGE BASICS

- Meet with both line judges, with flags, in a safe area near the court, while teams warm-up;
- Provide a friendly atmosphere with introductions and explain that they are now officials and not to engage in cheering for either team;
- Quickly assess the knowledge and experience level of each line judge by asking questions;
- Define and demonstrate the line judge's base position;

Line Judges Overview

- Explain that they may need to move to get out of the way of a player(s) or ball;
- Encourage line judges to move when a server encroaches in their area — take a position parallel to end line, about 4-5 feet from the corner, then immediately return to base position after contact of serve or once the player(s) enters the court;
- Explain that a server cannot contact the end line while contacting the ball for serve;
- Define their two lines of responsibility (end line and sideline) on their court and the other court;
- Remind them that a ball that lands on the line is “in”; that “out” also includes a ball contacting either antenna or if entire ball goes outside either antenna (the antenna extends above the ceiling to infinity);
- Briefly explain the touch signal and that it is only needed at the end of a play;
- Demonstrate each signal as you review.

Line Judges Overview

- Invite them to join you, at each attack line, near the referee's stand during time-outs;
- Encourage them to communicate if a coach or fan is being inappropriate toward them; and
- Lastly, remind the line judges that they are not ball retrievers.

Arbiter - Schedules & Assigning

- ❖ Accept/Decline matches ASAP
- ❖ Travel (Driver/Rider) not inputted until later; please don't email/text saying mileage is missing
- ❖ **How mileage is determined...**
 - Think of a circle
 - If you live within 10 miles of "center" and school is within 10 miles of "center" then no mileage paid.
 - Spaghetti Bowl = "center"
 - 10 mile radius from "center"
 - Suggest...keep track of all miles to clinics, scrimmages, matches regardless if paid for travel mileage.

Live outside this circle... 10 miles + then mileage. >10 miles then no mileage

Questions??

Ask them!

See you at the scrimmages!!
